Field	Value
Title	The magus, or, Celestial intelligencer : being a complete system of occult philosophy : in three books containing the antient and modern practice of the cabalistic art, natural and celestial magic, &c. ... exhibiting the sciences of natural magic; alchymy, or hermetic philosophy also the nature, creation, and fall of man ... ; To which is added Biographia antiqua, or the lives of the most eminent philosophers, magi, &c. : the whole illustrated with a great variety of curious engravings, magical and cabalistical figures, &c.
Author	Barrett, Francis
Place	London
Publisher	Lackington, Allen & Co.
Date	1801
Description	197 p.
Record Type	Book
Descriptors	Ceremonial Magic. Occultism, Alchemy, Magic
Notes	The Magus is one of the primary sources for the study of ceremonial magic, and for a long time was one of the rarest and most sought after of the 19th century grimoires. Barretts' magnum opus embodies deep knowledge of Alchemy, Astrology, and the Kabbalah, and has been cited by the Golden Dawn and other occult and esoteric movements as source material. Written in 1801 in the middle of the 'Age of Reason', sandwiched between Newton and Darwin, this was possibly the last epoch that a work like this could be composed.

Field	Value
Class	L8 B371 1705

Field	Value
Title	An historical, physiological and theological treatise of spirits, apparitions, witchcrafts, and other magical practices, With a refutation of Dr. Bekker's World bewitch'd; and other authors that have opposed the belief in them.
Author	Beaumont, John, d. 1731
Edition	1st ed.
Place	London
Publisher	Printed for D. Browne (etc.)
Date	1705
Description	[16], 400 p. ; 20 cm.
Record Type	Book
Descriptors	Witchcraft, Magic. Bekker, Balthasar, 1634-1698, Occult sciences, Ghosts, Apparitions, Puritans
Notes	Beaumont was a surgeon in Somerset, and had an interest in geology and spiritualism. He was elected a Fellow of the Royal Society in 1685, and had written letters to the Royal Society on "Rock-plants in Lead Mines of Mendip Hills11 , 1676 and 1685. The title of the present work is deceiving as the author explains the contents of his work largely in terms of supernatural influences rather than any physio-pathological explanations. The author does describe two episodes of melancholia which he had experienced during his lifetime • An historical, physiological, and theological treatise of spirits, apparitions, withcrafts, and other magical practices. The book contains an account of the Genii or familiar spirits, both good and bad that are said to attend men in this life; and what sensible perceptions some persons have had on them; (particularly the Author's own experience). Also of appearances of spirits after death; devine dreams, divinations, second sighted persons, etc... Likewise, the power of witches and the reality of other magical oeprations.

Record 138: De la Demonomanie des Sorciers, by Jean Bodin

Field	Value
Class	L8 B667d 1580
Title	De la Demonomanie des Sorciers, by Jean Bodin
Author	Bodin, Jean, 1529-1596.
Edition	1st. ed.
Place	Paris
Publisher	Jacques du Puys
Date	1580
Description	252 p.
Record Type	Book
Descriptors	Witchcraft|Magic
Notes	Bodin was a French political philosopher and jurist whose exposition of the principles of stable government was widely influential in Europe as the medieval systems were giving importance to centralized states. By 1566, his fame as a writer on law and politics had already spread over Europe and he influenced the organization of many governments. His later work on anarchy, which he was to experience in the troubled times of France, led him to become a strict authoritarian in the recognition of the sovereignty of the state. The Demonomanie was written to help judges counter witchcraft and was based on Bodin's personal experiences as judge in many witch trials, as well as on his erudition. This work was popular with both Roman Catholics and Calvanists, and had ten editions before 1604. Bodin rejected · Weyer's views of a medical interpretation for many of the phenomena of witchcraft. Weyer's De Praestigiis had been reprinted in Basel in 1578, two years before Bodin's work appeared, which appeared as a refutation of Weyer's position. Paris: Jacques du Puys, 1580. FIRST EDITION n. Reflecting the author's strong need to protect society from sorcery, this is the first appearance of a manual for judges in witchcraft trials and a landmark work notable for its particularly hard-line support of the prosecution and persecution of witches. French jurist Jean Bodin (1529-96) was highly educated in the humanist tradition, and his works on political philosophy and economics were much respected and highly influential--which makes his

Field	Value
	belief in witchcraft and strong support of witch hunting all the more puzzling and lamentable. As judge in numerous witch trials, Bodin formulated one of the earliest legal definitions of a witch: "one who knowing God's law tries to bring about some act through an agreement with the Devil." Robbins describes him as "an unmitigated bigot" who did not shrink from torturing women, children, or invalids in order to obtain confessions. According to Bodin, normal protections afforded criminal defendants must be dispensed with, as "not one out of a million witches would be accused or punished, if regular legal procedure were followed." Death by burning was the appropriate punishment, and any judge who did not impose a sentence of death on a sorcerer should, in Bodin's view, be put to death himself. Because of his prominence as a scholar, Bodin's writings on witchcraft were persuasive at a time when skepticism about the supernatural was on the rise, and

Date	1825
Description	xxiv, 350 p.
Record Type	Book
Descriptors	Encephalitis
Notes	English Title: Clinical and physiological treatment of encephalitis or inflammation of the brain and its consequences. A French physician, born in Garat and on the faculty at the University of Paris. After studying inflammation of the brain, he suggested that definite cerebral areas were connected with particular functions, thus delimiting motor, perceptual and intellectual activity. In 1825 he published a classical account of aphasia, which he suggested was a result of injuries to the frontal lobe. He was a great admirer of Franz Gall and equated his phrenology with an alleged scientific psychology. He defended Gall and phrenology for over 40 years against his colleagues. Through three case histories he demonstrated that paralysis of the speech organs (aphasia) could exist independently of any other paralysis in 1839. Support for Bouillaud's concept of a speech center was made by Broca who localized the speech center in the left frontal lobe, and asserted that aphasia was associated with a lesion on the left third frontal convulation of the brain. (GarrisonMorton #4618 and 4619).

Title	A full and impartial account of the discovery of sorcery and witchcraft, practis’d by Jane Wenham of Walkerne in Hertfordshire, upon the bodies of Ann Thorn, Anne Street, &c. The proceedings against her from her being first apprehended, till she was committed to gaol by Sir Henry Chavncy. Also her trial at the assizes at Hertford before Mr Justice Powell, where she was found guilty of felony and witchcraft, and received’d sentence of death for the same, March 4 1711-12.
Author	Bragge, Francis, 1664-1728
Place	London
Publisher	Printed for E. Curll, at the Dial and Bible against St. Dunstan's Church in Fleetstreet,
Date	1712
Description	[4],36 pages ; 8^{0}.
Record Type	Book
Descriptors	Witchcraft. Wenham, Jane, -1730.
Notes	Jane Wenham was one of the last, if not the last woman, to be sentenced to death as a witch in England. But thankfully her sentence wasn’t carried out. Queen Anne gave her a royal pardon and she was able to live out the rest of her life being looked after by the gentry. https://en.wikipedia.org/wiki/Jane_Wenham_(alleged_witch)

Field	Value
Class	L8 B918m 1858
Title	A Manual of Psychological medicine: containing the history, nosology, description, statistics, diagnosis, pathology, and treatment of insanity.
Author	Bucknill, John Charles, Sir, 1817-1897; Tuke, Daniel Hack, 1827-1895.
Edition	1st ed.
Place	London
Publisher	John Churchill
Date	1858
Description	570 p.
Record Type	Book
Descriptors	Mental Disorders
Notes	Bucknill and Tuke were both distinguished English neurologists and psychiatrists. D. H. Tuke was the scion of the Tuke family of York, son of Samuel Tuke, and greatgrandson of William Tuke, the founder of the York Retreat in 1796. Both Bucknill and Tuke were strong supporters of nonrestraint in the institutional treatment of mental patients. This was the first of the modern textbooks of psychiatry to appear in the English language. This remained the standard English work on psychological medicine over a period of 25 years, the fourth and last edition being issued in 1879. It contains chapters on history, influence of civilization, definition, classification, forms, statistics, diagnosis and treatment of insanity and ends with an appendix of cases. Author	Casaubon, Meric, 159-1671
Place	London
Publisher	Printed by T.N. for Samuel Lownds,
Date	1670
Description	(4), 208 p.
Record Type	Book
Descriptors	Witchcraft|Christianity|Magic
Notes	Although Casaubon, a notable divine, classical scholar and one of the Cambridge Platonists, had written in 1655 of a natural basis as a common cause for the delusions and hallucinations of the insane, his position was changed with the publication of this work in 1670. Two years later it was republished under the alluring title,! treatise proving spirits, witches and supernatural operations. According to Causabon, the spirit of scientific inquiry, observation and explanation of natural phenomena incorporated in the Royal Society, founded in 1660, were rapidly gaining ground at the cost of true religion and resulted in a subsequent rise of atheism. In this work he returns to all the old reasons in favour of witchcraft and demoniacal possession, rejecting Weyer's argument (De praestigiis daemonum, 1563) for the medical interpretation of the phenomena of witchcraft.

Description	[20], 316 p. ; 8º
Record Type	Book
Descriptors	Medicina popular > Obras anteriores a 1800.
Notes	Like many authors on nervous diseases of melancholy and depression, Cheyne wrote from personal experiences. Like many of his type he claimed that those of the liveliest and quickest natural parts... whose genius is most keen and penetrating" were most prone to melancholic disorders. In speaking of England, he referred to a Reproach universally thrown on this Island by Foreigners, and all our Neighbors on the Continent, by whom neryous Distempers, Spleen, Vapours and Lowness of Spirits, are in derision, called the ENGLISH MALALDY. And I wish there were not such good Grounds for

Record Type	Book
Descriptors	Economics.
Notes	A Treatise on Political Economy in which is preferred a supplement to a preceding work on the understanding or elements of ideology with an analytical table and an introduction on the faculty of the will. Translated from the unpublished French original [by Thomas Jefferson]. Introduction by Thomas Jefferson. Georgetown, District of Columbia, Joseph Milligan. Destutt de Tracy, one of the French idealogues of the 1780s and later was a close friend of Jefferson's and profoundly influenced Jefferson's thought and writings. This work was translated and published with reluctance by Jefferson for by 1817, he was far more conservative in his thought, but a few friends and admirers strongly want.ad this work to be published for it is a great proclamation for individuality and freedom of thought within a political system.

	(1743-1826) [trans.]
Place	Philadelphia
Publisher	William Duane
Date	1811
Description	292 p.
Record Type	Book
Descriptors	Politics, Political Theory. Political Science.
Notes	"Montesquieu's political treatise (1752) The Spirit of Laws covers a wide range of topics in politics, law, sociology, and anthropology. Montesquieu advocates constitutionalism and the separation of powers, the abolition of slavery, the preservation of civil liberties and the rule of law, and the idea that political and legal institutions ought to reflect the social and geographical character of each particular community. In the present book, de Tracy brings a scientific approach to explaining the motives, and hence the observed consequences, of various kinds of government styles. He systematically works through many substantial flaws in Montesquieu's work, and delves into Montesquieu's logical gaps. His values of personal liberty, human equality, and intellectual pursuit show through in every chapter. His explanations of economics and how different government organizations do or do not contribute to economic welfare and personal liberty are clever and clear; and he is frank in suggesting that economics as a theoretical subject warrants illumination by others." Field	Value
Class	HQ 31 E47 1921
Title	The new horizon in love and life / by Mrs. Havelock Ellis
Author	Ellis, Edith Mary , (1861-1916)
Place	London
Publisher	A. & C. Black Ltd
Date	1921
Description	xl, 200 p., [1] leaf of plates : port. ; 21 cm
Record Type	Book
Descriptors	Love. Marriage. Social problems. Women--Social conditions. Women--Suffrage. World War, 1914-1918. Great Britain--Social conditions--20th century.
Notes	"The essays and lectures which form this volume constitute a fairly well-connected whole, since they deal from a definite individual standpoint with the essential personal and social problems of our time. Yet the writing of them covered a long period of years, from 1891 to 1915 ... [The author] had arranged the chapters in a certain order, but had not worked over them from the point of view of book form nor written any Preface ... It has been thought desirable for publication purposes to alter this order. Miss Marguerite Tracy is responsible for the re-arrangement and for the division into two distinct parts. She has also struck out numerous passages which seemed to overlap ... The order in which the chapters stand is no indication of their date." -- Pages xxxix-xl

Notes	Illustrated by more than eight hundred engravings accurately copied; and some duplicates added from originals. Executed by or under the inspection of Thomas Holloway. Translated from the French by Henry Hunter, D.D. This the most magnificent work in The Kenworthy Collection from an aesthetic view point, serving as a great manifestation of the art of the book in eighteenth century England. This is the finest of all the many editions of Lavatar's Essays, that were published in many languages and editions issued for a period of over 100 years. It consists of three large folio volumes, bound in decorative full-leather with gilded titles, vignettes, and gilding of the three edges of each volume. The binding was done by R. M. Porter, a celebrated London bookbinder who flourished in the late nineteenth century. The numerous engravings and the printing of the book were made under the supervision of the Swiss-English artist, Henry Fuseli. The standard figures illustrating physiognomy, based on Lavater's designs of the recent French edition and other previous editions (first edition, published in German at Leipzig in 1772), were all reengraved by Thomas Holloway and his assistants. But the majority of the illustrations are new engravings based on the works of many famous artists, personally selected for engraving by Fuseli. Fuseli was a long time friend of Lavatar's, and had attended a theological seminary with Lavatar in-Geneva. "Physiognomy is the science or knowledge of the correspondence between the external and the internal man, the visible superfices and the invisible contents". This is why pictures of idiots and lunatics were common in books like this and later in the phrenological literature before they appeared in medical treatises on insanity such as Sir Alexander Morrison's Outlines of lectures on mental diseases, 1826 (second edition).

Notes	Known in English as “Of Ghostes and Spirites Walking by Nyght, and of Strange Noyses, Crackes, and Sundry Forewarnings, Whiche Commonly Happen Before the Death of Menne, Great Slaughters, & Alterations of Kyngdomes,” from the 1572 English translation, this book is one of the most important demonological works of the Reformation era and was profoundly influential in Elizabethan literature. _x000B__x000B_The author, Ludwig Lavater (1527-1886), was a Swiss Zwinglian minister and theologian based in Zurich. In the 16th and 17th-century Protestant world, new questions surfaced regarding the nature of ghostly apparitions—particularly their origins. In the Catholic understanding, ghosts were generally thought to be spirits of the dead on leave from Purgatory. With their rejection of the doctrine of Purgatory, Protestant philosophers and theologians were compelled to search for new answers.

Record 918: The geological evidences of the antiquity of man : with remarks on theories of the origin of species by variation, by Sir Charles Lyell.

Field	Value
Title	The geological evidences of the antiquity of man : with remarks on theories of the origin of species by variation, by Sir Charles Lyell.
Author	Lyell, Charles, Sir, 1797-1875.
Edition	2d American from the latest London ed.
Place	Philadelphia
Publisher	George W. Childs
Date	1863
Description	x, 526 p. illus. (incl. maps) II pl. (incl. front.) 23 cm.
Record Type	Book
Descriptors	Evolution. Glacial epoch. Human beings > Origin.
Notes	[Written Notes on paper] Lyell's summary discussion of the evidence for human antiquaty "introduced a wide readership to the new view and to the facts that supported it, thus lay the syntethic foundation for future works" (grayson). This work also contains Lyell's 1st published statements about Darwin's theory of evovlution by natural selection. But one must realize that The Origin of Species (1859) was prepared under the advice of Lyell and Hooker. This copy is in a fair condition, 212 x 142 mm. Original blin-stamped green letheer-grain cloth, gilt-lettered spine, gilt vignettes on front cover, 2 wood engraved plates (including front piece). Numerous wood-engraved text illustrations. Lyell wrote the first modern text on geology, Elements of Geology. London, John Morray, 1838, who was considered the "founder of modern geologly and greatly influenced by Darwin.

Publisher	Richard, Caille et Ravier
Date	1801
Description	LVI, 318, [2] h. de lám. : il. ; 21 cm
Record Type	Book
Descriptors	Psychiatry > France. Psychiatry > Early works to 1900.
Notes	English Title: Medico-philosophical treatise on mental alienation or mania: with figures representing skull shapes or portraits of insane. Pinel was among the first to treat the insane humanely; he dispensed with chains and placed his patients under the care of specially selected physicians. He rejected Galenic methods of treatment and most medications, and established moral therapy, a humanitarian treatment of the insane with attention to patients basic physical needs, hygiene, structured activities, occupational therapy, exercise, educational methods and even individual personal interviews. The medical historian Garrison considered this work as one of the foremost medical classics. Pinel founded the French School of Psychiatry which was to have the dominant influence in the development of psychiatry during the first half of the nineteenth century. The English translation of Pinel's work appeared in 1806. (Garrison-Morton #4922)

Title	Daemonolatreiae libri tres, by Nicolas Remy
Author	Remy, Nicolas 1530-1616
Place	Frankfurt
Publisher	in officina Palthenii
Date	1596
Description	12 p. l. 407 p. 15 cm.
Record Type	Book
Descriptors	Witchcraft|Magic
Notes	Nicholas Rémy (1530-1616). A powerful judge and privy councilor to Duke Charles III of Lorraine, Rémy began trying people for witchcraft in earnest in 1582 following the death of his eldest son, whom he believed to be the victim of a curse put on him by a local beggar woman subsequently tried by Rémy and executed. On retiring Rémy wrote the present work based on his extensive trial notes from the previous fifteen years, a period in which, he boasts, he put to death 900 people. It became one of the most influential witch-hunting manuals of the period; four editions had been published by 1598, including a translation into German.

Field	Value
Class	L8 R949m 1789

Field	Value
Title	Medical inquiries and observations.
Author	Rush, Benjamin, 1745-1813.
Place	Philadelphia
Publisher	Prichard & Hall
Date	1789
Description	206 p.
Record Type	Book
Descriptors	Medicine
Notes	This work, although earlier in publication than Rush's Medical Inquiries and Observations upon the Mind, because of the importance of the 1812 work for the history of Americanpsychiatry. Rush was considered the ablest American clinician of his time, dating back to a few years before the beginning of the American Revolution. He was a friend of Benjamin Franklin and one of the signatories of the Declaration of Independence. His many writings are distinguished by his classical style. Rush probably has had more influence on American medicine than any other single man.

Date	1812
Description	367 p.
Record Type	Book
Descriptors	Mental Disorders|Psychiatry
Notes	The first American textbook on psychiatry was written by the best known of the colonial physicians and a signer of the Declaration of Independence. Considering the state of psychiatry in Rush's time, this was a noteworthy study that ran into five editions (fifth edition, 1835). However in this work he follows the pattern and teachings that characterized his work of a lifetime - a curious mixture of the original and the credulous, the liberal and the fanatic. He was called the modern Galen of Philadelphia. He accepted many of the reform practices of the English and French, but believed that the pathology of madness lay "primarily in the blood vessels of the brain", and so treated the insane with excessive bleedings, often 20 to 40 ounces of blood taken immediately in acute cases. Cupping with leeches and blistering were also often applied. Furthermore he developed the most complete restraint system ever devised, Rush's celebrated "tranquillizer" chair. In 1927, a seal bearing the likeness of Benjamin Rush was adopted by the American Psychiatric Association, although he had been regarded as "the father of American psychiatry" for many years. (Garrison - Morton #4924)

Title	The displaying of supposed witchcraft : wherein is affirmed that there are many sorts of deceivers and impostors, and divers persons under a passive delusion of melancholy and fancy : but that there is a corporeal league made betwixt the devil and the witch, or that he sucks on the witches body, has

Field	Value
	carnal copulation, or that witches are turned into cats, dogs, raise tempests, or the like, is utterly denied and disproved : wherein also is handled, the existence of angels and spirits, the truth of apparitions, the nature of astral and sydereal spirits, the force of charms, and philters, with other abstruse matters
Author	Webster, John, 1610-1682
Place	London
Publisher	Jonas Moore
Date	1677
Description	346 p.
Record Type	Book
Descriptors	Witchcraft. Deception. Delusions.
Notes	Webster, a physician and metallurgist from Lancashire, interpreted many of the phenomena of witchcraft as being due to melancholy and delusions of fancy. He placed an important role to the imagination in explaining delusions and hallucinations. He differentiated imposture, malingering and natural disease processes. "It is clear that one addle-pate (muddled brain) dreams up in his own mind the deeds of a thousand witches in a real world ••• and if they are insanae mentis, their Confessions are no sufficient evidence, not worthy of any credit; because their is neither Reason, Law, nor Equity that allows the testimony or confession of an Idiot, Lunatic, mad or doting person •••• not be accounted by compotes mentis, nor governed by rationability. 11
