| Inscribed Notes | [Inscription] My dear Dr. Meyer, 'A Biography of Human Conflict' would in a sense have been the clearer and more significant title for this book, so largely is it personal history in the making. It is with the thought of it's more intimate autobiographical meaning that I am taking the liberity of sendingyou this copy of it. With remeberance and appreciation, Sincerely your, Trigant Burrow, May 25,1937 |
